*You must produce a **hard copy** for each of your responses to accompany the softcopy on the Compact Disk (CD).*

Item 1

Tourism in the country has of recent dropped according to the tourism income report of 2024. The officials from the ministry of tourism in Uganda has decided to carry out extensive research on the different ways it can boost the tourism sector in. They have timetabled to visit different tourism places among which include the Uganda Wildlife education Centre (ZOO). They need a special presentation from the managers of the different centers that they are to visit clearly describing the challenges they find, a table displaying the staff they have and samples of pictorial samples of animals at hand. In addition, they need to know;

(i)   The female animals in the zoo,
(ii)   animals that are regularly visited,
(iii)   Total monthly revenue obtained from visiting the animals.

Your uncle, the manager of Uganda Wildlife Education Center (ZOO) has been burdened by this visit from the officials because he lacks the necessary ICT knowledge to prepare the necessary presentation. He approaches you for help.

Task:
a) Help your uncle to prepare for the officials. A support file called **Tourism** has been provided in the support folder.

Item 2

Karokarungi General Hardware is a fast-growing hardware business in Kassanda Town and it has customers in different parts of the country. Currently the hardware advertises in some newspapers, banners and posters its new products and stock. The administration wishes to put this on another level by using more ICTs to interact effectively with the public on all that happens at the hardware shop including staff information, showroom, and active queries page where customers can provide feedback from.

Task:
With your skills of ICT, help the administration to achieve this goal. A support folder called **SET2-SUPPORT** has been provided containing some files to help you achieve this on behalf of the management.

END
